EVENTS

VM RADIO X CLUB ATELIER (21-01-2023)

On the 21st of January we returned to Club Atelier Amsterdam for our second takeover of the Lila room. This edition turned out to be even bigger, better and louder than the first one back in March '22.

Alongside renowned Techno artists in the main room, we blew up the Lila room with a steamy night filled with Melodic Dance music.

After multiple successful events at the Club in Amsterdam, we can now proudly say that we have a residency at Club Atelier.

All performed sets of our last event are recorded and can be listened on Soundcloud

't KOFCHIP @ CLUB ATELIER (11-03-2022)

On Friday the 11th of March '22 we threw our first official event, "t Kofschip" in Club Atelier in Amsterdam.

The event SOLD OUT (225 tickets) and was reselling on TicketSwap.

't Kofschip is our flagship event in which we combine all of our members' talents to create an immersive intimate night. Together with our AV artist we aim to find the sweet spot between sound, light and site.

We aim to organize a yearly fall and spring edition.

All performed sets of our last event are recorded and can be listened on Soundcloud

VM RADIO – SHOWS & SPECIALS

By posting weekly one-hour long Radio Shows our artists and invited guest artists have the freedom to highlight their different musical styles while not being restricted by factors such as setting, and connecting them to a wider audience.

Next to that, we deliver special mixes once in a while. These mixes are always based around a certain theme, or can be focussed on a particular niche.

To get a taste of all that, check out some of our 90 (and counting) Radio Shows or omnifarious Specials
